

Q&A with Katie

Q: What does a day in your role look like?

A: Highline is a fast paced and positive environment to be in. Each day is varied, and I have the opportunity to liaise with all members of the team each day as well as clients and suppliers. My days can be interviewing, attending meetings or working on my laptop.

Q: What is your biggest achievement so far with working with Highline?

A: Each new year brings new achievements for us. A huge achievement was Highline gaining ISO Certifications which gave us a huge sense of pride.

Q: What is one thing you cannot live without in your line of work?

A: I can't live without a latte from our local café and also the radio to sing along to.

Katie Williams
Office & Accounts Manager

Team Update....

Contracts Manager, Fabio Barsanti

Congratulations to Fabio who was promoted at the end of last year to become Highline's very own Contracts Manager! Fabio has shown high levels of skill and motivation as well as a deep understanding of Highline Contracts and our values. He will now work alongside our Project Managers to help deliver all projects to the clients satisfaction. Best of luck in your new role Fabio!

Fabio Barsanti
Contracts Manager

Project Progress...

Our Project Manager, Des Baker, and Lead TSM, Ian Knight, is currently working with our pharmaceutical client to deliver a replacement of MRI unit into their Bio-Imaging department facility. Highline was appointed to take the project from client concept through to D&B scheme, which involved a services upgrade and architectural layout and finishes. This project will involve the re-purposing of four separate areas to establish a new prep area and MRI tech area, as well as the necessary temporary works for the removal of the Faraday Cage to enable the MRI replacement. The replacement for 9.4T MRI system will provide a modern, state of the art facility for our client.

Project Completion...

Our Specialised Works Team were tasked with replacing 2 x double doors and 1 x single door to give them a polished new look for one of Highline's longstanding clients! Take a look at the before and after!
