Project Completion...

Pharmaceutical Client – Ware

A well done to all our team for 16 weeks of perfecting the reconfiguration and refurbishment of an existing store space to form new toilet facilities and changing / locker rooms. As Principal Contractor, we carried out the following scope:

- Strip out of existing space.
- New partitions forming the new layout.
- New Suspended ceilings and MF plasterboard ceilings
- New vinyl flooring
- New ceramic floor and wall tiling to WC's.
- New joinery, fixtures and fittings.
- A new external Louvre was formed in the external wall to facilitate mechanical extract to open air.

New Mechanical and Electrical Services were installed to support the Facilities Changing Room and Toilet Facilities that comprised of:

- Lighting and Emergency Lighting.
- New Fire Alarm Warning and Detection Systems.
- Small Power.
- Fresh air system.
- Smoke / Fire Dampers.
- Extract Ventilation.
- Hot and Cold-Water Services.
- Above ground Foul Water Drainage.
- Design and installation of sprinkler system.

A handover both our clients and team are proud of – take a look at the finished photos across.

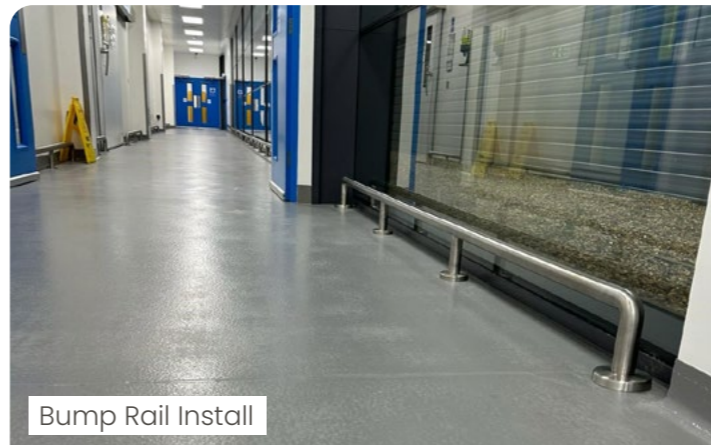

Security Lodge Progress: The Main Slab Rebar Is Now Complete!

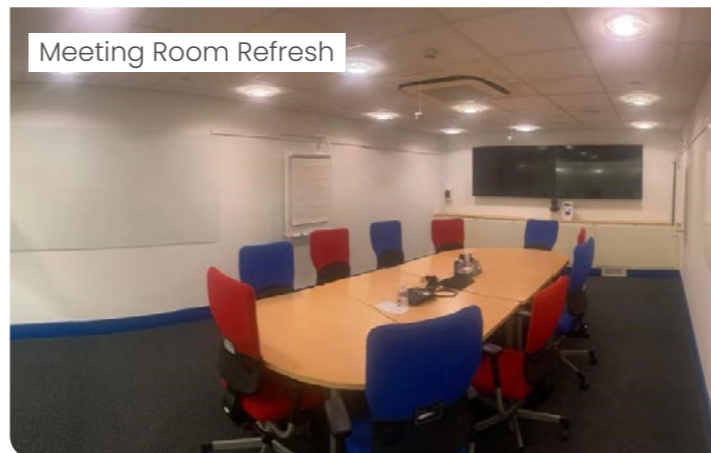

Specialised Projects Update...
