Our core values...

On the 20th October, it was International World Values Day. Although a lesser known day of awareness, we used it as a prompt to remind ourselves of our core values as a company. During our re-branding earlier this year, we invested time and effort into defining a set of core values that capture Highline's essence and are relevant to our business and goals.

WE MAKE AN IMPACT

We want the Highline brand and name to be synonymous with positive change and tangible impacts. This is why we always strive to go above and beyond for our clients to make a real impact in their working lives. In addition to this, we want to positively impact our own staff and do this by offering continual development opportunities, reward and recognition and wellbeing initiatives.

WE BELIEVE IT'S POSSIBLE

From technically complex solutions to space saving office installations, we want to bring our clients' visions to life. Our team of talented individuals are able to offer specialist advice on design elements of projects to ensure we meet and exceed our client's expectations.

WE ACT WITH INTEGRITY

Integrity is a word that sits at the heart of everything we do from behind the scenes office tasks to physical work on site, we strive to act with integrity at all times. This is a behaviour that is present throughout the entire company structure.

WE SEE THE CIRCLE

This particular value was a crucial one for all of us as one of our main marketing points has always been our complete approach and service to our clients. It also reflects our drive to build and maintain lasting client relationships and deliver projects as a cyclical journey.

WE MOVE THE LINE

This value captures our commitment to continuous improvement and innovation. If we're not improving then we're not improving the service we're offering our clients so we emphasise the importance of continual growth to better our project delivery capabilities to the highest standards.
